## Premium Well Water Filtration & Softening

CLEANER • SOFTER • HEALTHIER WELL WATER

# Premium Well Water Filtration, Softening & Iron/Sulfur Removal

The Westchester Waterco is a premium whole-house well water treatment system, designed to filter your water, soften hard water, and reduce iron and sulfur issues.
It helps remove sediment and common well water impurities while reducing hard water minerals, iron staining, metallic taste, and rotten-egg odors. Powered by NSF-approved media, the Westchester Waterco delivers cleaner, softer, better-tasting water throughout your home.

### KEY BENEFITS

- **Softens Hard Water**
- **Filters Sediment & Impurities**
- **Reduces Iron & Sulfur**
- **Protects Plumbing & Appliances**

### 1.5 CuFt

Perfect for well water families of up to six, the system offers flow rates up to 15 GPM and features a 48,000 grain capacity for efficient and reliable whole-house treatment.

### 2.0 CuFt

Perfect for well water families of up to twelve, the system offers flow rates up to 20 GPM and features a 64,000 grain capacity for efficient and reliable whole-house treatment.

*Performance depends on your well water conditions. Not intended for micro-biologically unsafe water. This system is intended for private well use. Final treatment recommendations should be based on a water quality analysis for best results.*

### SYSTEM SPECIFICATIONS

3/4" – 1.5" inlet/outlet sizes also available by request.

| Tank Size | Weight | Width | Depth | Height | Inlet/Outlet |
|---|---|---|---|---|---|
| 10" X 54" | 250 lbs | 18" | 18" | 61" | 1" |
| 12" X 52" | 320 lbs | 45" | 18" | 59" | 1" |

*Recommended PSI usage is 80 psi. Intended for residential well water use only.*
*"Lifetime warranty excludes medias and consumable parts.*

WELL WATER OXIDIZER • IRON, MANGANESE & SULFUR REDUCTION

HOW THE

## Westchester Waterco Air Injected Oxidizer Works

Unlike traditional water softeners that rely on salt to remove hardness minerals, the Westchester Waterco Air Injected Oxidizer utilizes an innovative oxidation process. It features a built-in compressed air chamber that oxidizes iron, manganese, and sulfur, effectively reducing rust staining, metallic tastes, and foul odors from your water. Once oxidized, these contaminants are captured in the system's media bed and flushed away during the regeneration cycle.

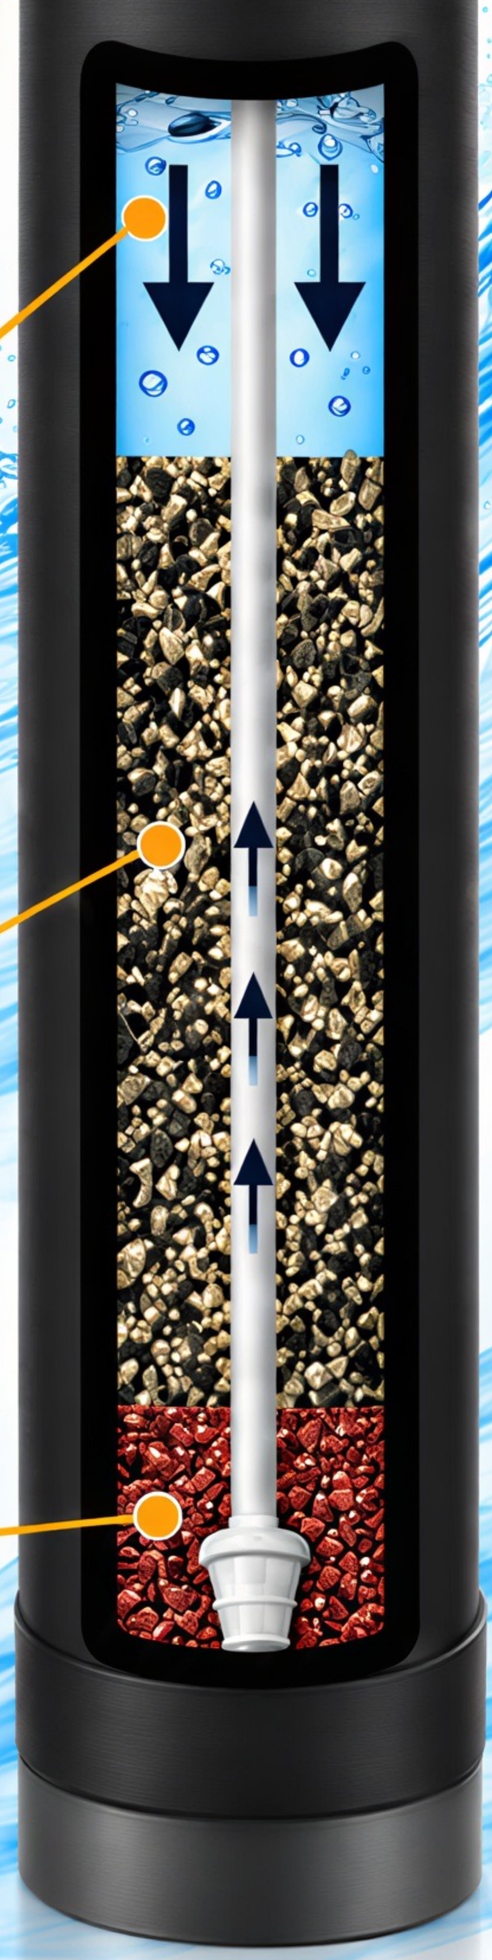

- **Reduces Iron & Sulfur**
- **Helps Remove Odors**
- **Improves Water Quality**
- **Protects Plumbing & Appliances**

LIFETIME WARRANTY

### Lifetime Warranty

Limited Lifetime Warranty on brine tank, resin tank, ion exchange resin, and valve body. All other parts (excluding consumables) are covered for 10 years.

*See Terms and Conditions*

### 1 Compressed Air Pocket

As the water passes through the air pocket, iron and sulfur are oxidized and dissolved oxygen is added to the water. The filter media bed then removes iron and sulfur from the water.

### 2 Pro Blend Katalox Light and Filter Ag

A blend of light weight media that removes iron, lead, manganese, arsenic, hydrogen sulfide, and heavy metals. Also filters out particles as small as 3 microns and saves on backwash water.

### 3 High Density Garnet Media

High Hardness, high density filter media, effectively filters and provides a high quality media bed for this system.

Whole House Water Treatment
Softening System

# Whole House Water Treatment System

## Efficient and Cost-Effective Dual Stage Water Treatment System

The Westchester Waterco system is a powerful carbon and softener combo system, designed to deliver cleaner, softer water throughout your home. it starts with a high-performance carbon filtration stage, which effectively removes chlorine, chloramines, and other impurities, improving taste and eliminating odors. The water then passes through a premium softening bed, reducing hardness minerals like calcium and magnesium to prevent scale buildup on pipes and appliances. With its all-in-one design, the Westchester Waterco System ensures better water quality, longer-lasting appliances, and a more comfortable home experience—all with minimal maintenance.

- **Safety Float in Brine Tank**
- **No Replacement Cartridges**
- **Enjoy better-tasting water by removing chlorine and impurities**
- **Protect and extend the life of your water-using appliances**

### 1.5 CuFt Westchester Waterco System

Typical for a family of up to 6 people.

Flow rates up to **15 GPM.**

48,000 grain capacity.

### 2 CuFt Westchester Waterco System

Typical for 7 or more people or longer lasting life for less.

Flow rates up to **20 GPM.**

64,000 grain capacity.

*"Depends on water usage and water quality conditions. Not intended for microbiologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water; any other application requires a water quality analysis for best results.*

**Upgrade to the Westchester Waterco System today and enjoy the benefits of cleaner, softer water throughout your home!**
